Contents

1. Talk 1: How Digital Layout Transforms Luxury-Stone Delivery
2. Talk 2: The Design Logic of 68 Quality Nodes
3. Talk 3: A Stone Supply Chain for the Carbon Era

Talk 1: How Digital Layout Transforms Luxury-Stone Delivery

From "the surprise after cutting" to "confirmation before cutting": slab scanning plus 1:1 digital trial assembly locks the book-match effect before the saw starts, sharply reducing project rework.

Talk 2: The Design Logic of 68 Quality Nodes

From block selection, cutting direction and slab grading to machining tolerances and packing: every stage carries a quantifiable checkpoint — quality is not a slogan, it is a process.

Talk 3: A Stone Supply Chain for the Carbon Era

EPDs, low-carbon logistics and quarry rehabilitation: how suppliers respond under the new normal of international tendering.
