Contents

- 1. Product Standards Table
- 2. Routine CE Testing Items
- 3. Usage Notes

Product Standards Table

EN 12057 — Modular tiles (slabs ≤12 mm)
EN 12058 — Slabs for floors and stairs (>12 mm)
EN 1341 — Slabs of natural stone for external paving · EN 1342 — Setts · EN 1343 — Kerbs
EN 1467 — Rough blocks · EN 1468 — Rough slabs · EN 1469 — Slabs for cladding (dry-hang)
EN 12059 — Dimensional stonework · EN 12326-1/-2 — Roofing slate
EN 15285 / EN 15286 — Agglomerated stone floor / wall tiles

Routine CE Testing Items

Petrographic analysis, flexural strength, compressive strength, atmospheric water absorption, capillary absorption, apparent density and open porosity, freeze-thaw resistance, abrasion resistance, slip resistance, anchor-hole pull-out load, fire reaction, thermal shock.

Usage Notes

Harmonised standards (e.g. EN 12058 / 1341 / 1342 / 1343 / 1469) require a Declaration of Performance (DoP) and CE marking; non-harmonised ones (e.g. EN 1467 / 12059) do not mandate CE. Always confirm the current edition with CEN before invoking a standard in contracts.
