
Japanese Standards Quick Reference (JIS)

STANDARDS QUICK REFERENCE · HSST KNOWLEDGE LIBRARY

Published by: Hengsheng Marble S&T; Co., Limited

Version: V1.0 · 2026

Intended readers: Japan market

Contents

- 1. Core Standards
- 2. Characteristics of the Japanese Market

Core Standards

JIS A 5003 — Stone (terms, types and quality requirements)

JIS A 5006 — Test methods for stone (absorption, compression, bending, abrasion, etc.)

Characteristics of the Japanese Market

Emphasis on durability data and long-term supply consistency; both dry-hang and wet-fix methods coexist; strict control of packing and transit losses. HSST's export experience to Japan supports full-process compliance.
